### Synod Update

As the recent phase of the Synod drew to a close in Rome this past weekend much focus was on the synthesis document that emerged from the sessions. Many focused on what was in it; others on what was not. Some lamented that the Synod document did not reference many Dogma teachings, and others that it did not address the role of women in our Church and other issues as clearly as it might. Some have commented, rightly, that the actual experience of synod was more important than the document that emerged. Because that experience cannot be "unhad", the Church can never go backwards. Questions are on the table... they have been asked... we now have to continue to journey with them. It was heartening to read that those in attendance could not imagine a future Synod without the involvement of all - that this had to be said is shocking; but that this was said is shockingly wonderful. These conversations will now continue in our local churches and parishes. The report from this phase can be found at <https://www.synod.va/en.html> and it is on the Ossory website. – Fr Dermot Ryan
